### North Dakota Plan for Behavioral Health

#### **Partners & Purpose**

The Human Services
Research Institute (HSRI) is
supporting the North
Dakota Behavioral Health
Planning Council (BHPC)
and working with
stakeholders—including
service users and families,
advocates, providers,
administrators, and other
North Dakotans—to set a
course for ongoing
system monitoring,
planning, and
improvements.

#### Vision

With full regard for the value of each person, appropriate behavioral health services, encompassing the full continuum of care, are readily available at the right time, in the right place and manner, and by the right people, offering every North Dakotan their best opportunity to live a full, productive, healthy, and happy life—free of stigma or shame—within caring and supportive communities.

#### ND Behavioral Health System Study

In 2017-2018, HSRI and the North Dakota Department of Human Services
Behavioral Health Division conducted an analysis of North Dakota's behavioral health system, including use and expenses. The final report details the findings and provides 13 areas of recommendations for improvement.

#### Plan

Building on the recommendations from the study, we identified priority goals and established implementation strategies to enhance the comprehensiveness, integration, cost-effectiveness, and recovery orientation of the behavioral health system to effectively and equitably meet the needs of the community.

#### **Dashboard Use**

This dashboard summarizes the goals and objectives of the Plan and is updated every three months. The information can be used to inform and educate, track project status, and encourage participation with local and state entities to improve the behavioral health system.

### Summary

After learning from the community about their priorities for systems change, the Behavioral **Health Planning Council** selected 13 aims with 28 goals. Many of these goals will take several years to achieve. To track progress, we've created objectives, action steps, benchmarks, completion dates, and indicators of success for each goal.

	Objectives	Complete or In Progress and On Time
1.	Develop and implement a comprehensive strategic plan	87%
2.	Invest in prevention and early intervention	86%
3.	Ensure all North Dakotans have timely access to behavioral health services	64%
4.	Expand outpatient and community-based service array	91%
5.	Enhance and streamline system of care for children and youth	39%
6.	Continue to implement and refine the current criminal justice strategy	63%
7.	Engage in targeted efforts to recruit and retain a qualified and competent behavioral health workforce	75%
8.	Continue to expand the use of telebehavioral health interventions	83%
9.	Ensure the system reflects its values of person-centeredness, health equity, and trauma-informed approaches	86%
10.	Encourage and support communities to share responsibility with the state for promoting high-quality behavioral health services	100%
